### Student Learning Outcomes:

1. Identify common automotive tools and their purpose, select the correct tool for the job at hand and use the tools in a safe manner.
2. Locate service information from available sources, determine parts and labor charges and accurately fill out a repair order.
3. Describe the operation of and power flow through a typical automatic transmission and transaxle.
4. Correctly perform basic service, diagnosis, and repair operations on a typical automatic transmission/transaxle.

The above outcomes assessed through oral and written quizzes and demonstrated correct procedures in the laboratory.
