

Term Effective:	Spring	2008
	Semester	Year

Title:
(limit to 50 characters including spaces)

Course Number:

Initiator:

Date Submitted:

Units Min: *If this is a variable unit course, then the relationship between units and any difference in expected SLO's should be explained.*

Units Max:

Lecture Hours: Lab Hours: Activity Hours:

Student Learning Outcomes: *(Enter the SLO's in an outline format. Use the Ctrl + Tab keys to indent for subtopics.)*

- 1: Demonstrate an understanding of historical, philosophical, sociological, psychological and biomechanical aspects within the field of Kinesiology.
 - 2: Assess and appraise career opportunities within the field of Kinesiology.
 - 3: Analyze and evaluate the application of kinesiology principles in the profession.
- Assessment Methods:
- 1: Students will submit original papers summarizing each sub discipline throughout the course. Essay exams will be given at the completion of each sub discipline with specific questions regarding the specific sub discipline.
 - 2: Career Orientation & Presentation: Students will be asked to research, submit and present various career opportunities within the field of kinesiology. Students will evaluate aspects within each profession including training, education, need, work environment and salary. The student will then create an action plan on how they will proceed to chosen career and effectively succeed in said career.
 - 3: Concepts and practice opportunities regarding the application of Kinesiology were provided and reinforced through classroom activities. Assessment will be based on the students ability to create and describe their future action plan in their Career Orientation and Presentation.
