

# Mendocino College

COURSE LEVEL STUDENT LEARNING OUTCOMES

Effective Date:

9/13/07

Title: Environmental Geology  
*(limit to 50 characters including spaces)*

Discipline/Number: EAS 208

Instructor Contact: Steve Cardimona

Date Submitted /Modified: 8/24/07

Units Min:	4	Units Max:	4	Lecture Hours:	3	Lab Hours:	3
<i>If this is a variable unit course, the relationship between earned units and any difference in expected SLOs should be explained.</i>							

### Student Learning Outcomes:

1. Students will be able to identify, define, explain and distinguish between various terms and concepts in environmental geology as measured by objective quizzes and exams, and/or via class assignments or term project components.
2. Students will be able to apply scientific principals to examine, analyze, relate and translate different types of geologic data regarding environmental characterization as measured by their laboratory work, term project components and/or specific class assignments or quiz/exam questions.
3. Students will be able to interpret, integrate, categorize and compare concepts in environmental geology as measured by their ability to discuss topics, answer assignment questions, and/or produce a term project report or address specific exam/quiz questions.
