

Child Development/Family Relations

ASSOCIATE OF SCIENCE DEGREE

Term Effective: Fall 2008

The Child Development Program prepares students for an Associate of Science Degree in Child Development/Family Relations or completion of a certificate in Child Development and levels of the Child Development Permits including Associate Teacher, Teacher, Master Teacher and Site Supervisor. Students develop knowledge and skills needed for success in transferring to a four-year college or university. The program prepares students to work with young children in a variety of settings including child care centers for infants and toddlers, preschool children and school-aged children.
