Program Learning Outcomes: *(Enter the SLO's in an outline format. Use the Ctrl + Tab keys to indent for subtopics.)*

The Associate of Science Degree in Physical Science at Mendocino College offers the groundwork in appropriate disciplines to help a student to transfer to a 4-year institution to pursue more academic training in fields that rely on physics.

After completing requirements for an AS in Physical Science, students will

- 1) have mastered important foundation knowledge in physics and chemistry, as demonstrated by satisfactory completion of SLOs for introductory courses in these areas;
- 2) have applied many basic physical science principals, as demonstrated by satisfactory completion of SLOs for an astronomy course, a weather and climate course, and for a physical geography or a geology course.
