Deyci

CARRILLO LÓPEZ

KEYNOTE SPEAKER

Deyci Carrillo López, as she says it herself, is a proud product of Guanajuato, México and Deep East Oakland, California. She is an author, entrepreneur, and immigrant rights advocate. Deyci started writing poetry when she was around 13 years old, shortly after finding out her immigration status. Words helped Deyci define who she is and who she wants to become in this world that is constantly screaming to define her worth and her power. With poetry, Deyci reclaimed her power and who she is. She is also a small business owner and with her brand hopes to inspire little and big humans to discover and own their magic through poetry and art.
