

Academic Senate 2026-2027 Goals

The following goals will help direct the work of the Academic Senate for the academic year of 2026-2027

- Discuss, assess and/or draft Artificial Intelligence policies and best practices, and advocate for professional development opportunities, educational materials, and classroom support.
- Support the College's accreditation process.
- Increase engagement and build relationships with College constituent groups, Faculty, Board of Trustees, and statewide organizations, focusing on the Senate's role in participatory governance (10+1).
- Work toward increasing ZTC courses and degrees, promoting engagement with, and the adoption of, OER resources, and advocate for processes, policies, and funding that ensure these programs are sustainable.
- Identify and dismantle inequitable structures relating to part-time faculty engagement and involvement within the purview of 10+1.
