He commented that goals at this level do not change dramatically over time and adjustments take place at five or ten year intervals or when it is time to refocus.

In regards to individual goals, they should fall under the umbrella of the Board’s goals with consideration being given to how you can support the Board’s goals. Trustees may choose to meet with Superintendent/President Darnell for assistance in developing those goals and they should be retained by each Trustee. This will make sure that the Board is acting as a unit.

Board President Clark instructed the Board that evaluation of how the Board has done in completing it’s goals is done at the spring workshop. He led the Board through a review of last year’s goals with Trustees offering suggested additions and changes to the goals.
