## MENDOCINO COLLEGE

### **2020 Summer Schedule All Online!**

#### **A COMMITMENT TO OUR COMMUNITY AND TO OUR STUDENTS**

---

The COVID-19 public health crisis has impacted our community and our college in unprecedented ways. Like the Public Safety Power Shutdowns, and the multiple large-scale wildfire events we've endured in the last several years, our collective response to these challenges has demonstrated the strong resilience in our community. Each of us represents an aspect of that community, and a potential solution to the challenges we face together. Our commitment to you as your community college has never been stronger. As a result of the social distancing and the shelter-in-place measures required to contain the spread of the virus, Mendocino College quickly shifted instruction and student services to an all online format in order to provide continuity to our students and their educational goals. We continue, as the crisis evolves, to direct our activities in the most effective and health-conscious way possible.

This Summer schedule reflects some of those adjustments. As we do not know how and when there may be a transition back toward traditional classroom education, we've developed our Summer schedule to be completely online. We have also converted all student services to remote methods, which you can access from home. See the links below this message for up to date information regarding the college and COVID-19, a list of your most frequently asked questions, and a directory of all online student support services available to you. There are also helpful tips for becoming a better online student included throughout this schedule. Please use them to increase your success online!

Summer registration is open now and Fall is soon to follow. If you've not already done so, please contact your counselor to see what classes are available to keep your educational goals on track. Stay enrolled, succeed online! We are hopeful that by Fall semester things may begin returning to a more normal state. To keep yourself up to date, please visit us at [www.mendocino.edu](http://www.mendocino.edu) frequently, and check your college emails and the text messages we send with important announcements. We continue to monitor and follow the advice of the State of California, the California Community College Chancellor's Office, the Counties of Mendocino and Lake, and local public health officials.

Together, we will meet these challenges, and continue our success. Let us know how we can help!

Stay well and have a great summer!

Eileen Cichocki, Interim Superintendent/President

# Tips for Succeeding as an Online Student

## 1. Avoid Multitasking

Many people think they can do multiple things at once. But research shows us that only about 2% of the population can multitask. Even if you feel like you’re multitasking, you’re probably not... really, you’re switching between tasks very quickly (some call this “micro-tasking”).

### The downsides of multitasking and microtasking:

- *Assignments take longer.*
- *You’re more likely to make mistakes.*
- *You’ll remember less.*

### What to do instead

- *Focus on one thing at a time.*
- *Take breaks between tasks.*
- *Focus for 25-50 minute periods and then reward yourself with short breaks.*

Tip # 2. Making the most of video lectures

- Stick to your instructor’s schedule as much as you can.** Staying on a schedule will help you have a feeling of normalcy and prevent you from falling way behind.
- Find out how to ask questions.** Is there a chat feature? Is there a discussion forum?
- Close distracting tabs and apps.** Humans are not as good at multitasking as they think! (See #1 above.)
- Continue to take notes as you would if you were there in person.**
- Watch recordings at normal speed.** Research shows that playback speed of 1.5x can lower your retention and can result in lower scores on assessments.

## Tip # 4. Trading your strategies for new ones

Your routines may have to adjust during this time. Look for ways to adapt your usual habits or form new ones.

### For example:

- **If you usually study in a coffee shop or library,** ask yourself what kind of environment helps you study. See if you can recreate that at home.
- **If you always study in groups,** try a virtual or phone-based study session with your group.
- **If you thrive on tight timelines, but now have a more open schedule,** think about how working with others or setting up a schedule can recreate that for you.

## Tip # 3. Setting a schedule

If the shelter in place orders continue, you may have fewer social commitments, group meetings, or work hours. Setting a schedule for yourself can help provide structure and keep you motivated. If you don’t already keep a weekly or daily calendar, try something like the example linked at [www.mendocino.edu/resources-online](http://www.mendocino.edu/resources-online) - click on the Online Student Reference Guide.

## Tip # 5. Staying connected to other people

Even if we limit how much face-to-face time we spend with others on campus, connecting with family and friends might be more important than ever. And staying in touch with instructors, classmates, and group mates is still important for continued classwork.

### Here are a few ideas:

- **Schedule video calls with friends and family.** Talking with loved ones is often really helpful when you're stressed or nervous about something. Taking a break to have a laugh is also important.
- **Attend virtual office hours** or study groups so that you can stay up on your coursework.

### Please remember, this will pass.

If COVID has disrupted your travel plans, ended a lab experiment you were excited about, or for any reason feels like it came at the worst possible time, remember: this is temporary. You'll find your way when it settles down. You'll get back on track, and things will get back to normal. We don't know when, but it will happen.

*Until then, take a deep breath, do your best, get some rest, and wash your hands!*

## PREREQUISITES, COREQUISITES AND RECOMMENDED PREPARATIONS

It is the intent of Mendocino College to guide students into courses in which they will have the greatest chance for academic success. Therefore, students will find that some have prerequisites, co-requisites or recommended preparation in their description. Following are the definitions for prerequisites, co-requisites, and recommended preparation:

**Prerequisite** - A course requirement that a student must meet in order to demonstrate current readiness for enrollment in a course or educational program. Completion of the prerequisite is required prior to enrolling in the course. Successful completion of a prerequisite course means that a grade of A, B, C, or P, was earned; C-, D, F, or NP grades are not acceptable.

**Co-requisite** - A course that a student is required to simultaneously take in order to enroll in another course. (If a course is listed as both a prerequisite and a corequisite it can be taken before or concurrently.)

**Advisories on recommended preparation** - indicates knowledge or skills that will be of great advantage to a student prior to enrollment in a specific course but are not required. (*Recommended Preparations can be found in the Mendocino College Catalog online*)

#### Prerequisite Challenge Procedure

If students feel they can meet the requirements, or one of the conditions listed below exists, and can provide documentation, then they can challenge a prerequisite. A Prerequisite Challenge Form can be obtained from the Mendocino College website or Admissions and Records Offices at the Ukiah campus, Lake and North County Centers. The challenge must be filed in the Office of Admissions and Records no later than the first day of the semester. Criteria for challenging a course are:

1. The prerequisite or co-requisite has not been established in accordance with the District's process for establishing prerequisites and co-requisites.
2. The prerequisite or co-requisite is in violation of Title 5, section 55003 Policies for Prerequisites, Co-requisites, and Advisories on Recommended Preparation.
3. The prerequisite or co-requisite is either unlawfully discriminatory or is being applied in an unlawfully discriminatory manner.
4. The student has the knowledge or ability to succeed in the course or program despite not meeting the prerequisite or co-requisite.
5. The student will be subject to undue delay in attaining the goal of his/her educational plan because the prerequisite or co-requisite course has not been made reasonably available.
