SUBJECT: PRESIDENT'S REPORT

SYNOPSIS: The President's report is offered for information.

ANALYSIS:

Strategic Planning Update

A major revision of the mission and vision of Mendocino College is underway. Forty-five students, staff, faculty and trustees met recently to consider how priorities have shifted around the state and whether or not our current limitations due to budget constraints have affected our stated goals and objectives. The constituent input received is being consolidated into a draft revision of the mission/vision/goals that will be finalized through the Planning and Budgeting Committee. The next step is to determine near-term priorities and to draft a strategic action plan to inform our decisions during the upcoming year.

Acquisition of Vehicle from Mendocino County Sheriff

For the purchase price of \$1.00, we have acquired a (very) used white Crown Victoria from the Mendocino County Sheriff. We are in the process of having our logo and "Mendocino College Security" painted on the sides. The use of this vehicle will be restricted to onsite at the Ukiah campus, and will be used to deter speeding and other potential rule and policy violations.

Continuing Challenges in Class Scheduling

We have been aware for almost two years that our high priority class offerings are to be in the areas of basic skills, transfer programs and career and technical education. The nationwide initiative is to support students in completion of their educational programs in order that they can become employable and productive citizens of our society. Although community colleges have traditionally also offered community interest and activity classes, the emphasis of the California legislature at this time is to help students earn degrees and certificates. To that end, many classes that do not fall into one of these three priority areas are not currently being scheduled at Mendocino College. Even when a class is accepted by the state and by the four-year colleges as a transfer class, we have to consider two other factors:

- Is the class required as part of a program that students can complete to help meet the goal of producing more graduates?
- Are the students who are taking the class using the class as part of a CTE or transfer program and do they plan to graduate and transfer?

Since we have complied with the Chancellor's Office's request to give higher priority to the three stated areas, we will be well positioned when the state inevitably moves into alternative funding mechanisms that allocate resources based upon student success and graduation rates. The faculty and staff should be commended for their work in this area.

Alert-U

Students will soon be able to opt in to receive text messages on their cell phones concerning emergencies at Mendocino College. Staff has been undergoing training as to what messages

are appropriate to communicate (from "campus closed due to snow" to "shooter on campus") and the technical details of sending messages via this new system.

Broadband Alliance of Mendocino County

Mendocino College is now a member of the Broadband Alliance of Mendocino County. Several of us participated in a meeting coordinated by Dan Hamburg, Mendocino County Supervisor, and attended by representatives from the Mendocino County Community Foundation, the Economic Development and Finance Corporation and several other local entities. The group is seeking our assistance in applying for and implementing a grant for funding to expand broadband services to all Mendocino County residents.

Community Connections

- Met with Lois Nash, Superintendent of Ukiah Unified School District to discuss "Choices," a Rotary sponsored program to help high school freshmen make good choices.
- Met with Dennis Willeford, Ukiah High School Principal, to discuss "Choices" and high school/college collaborations.
- Met with individual Foundation board members and Athletic Booster affiliate members to discuss fundraising and other operational topics.
- Attended Rotary Foundation banquet in Arcada, as well as weekly Rotary meetings.
- Met with Ed Kujawa, Dean at Dominican University, and Lisa Kelly, local Dominican representative, to discuss possible co-location of Dominican offices on our Ukiah campus.
- Met with Scott Yandell, President of the Savings Bank of Mendocino County, and Dennis Willeford to discuss Chessall scholarship issues and the investment of the Chessall funds.
- Attended dinner to honor Heidi Dickinson, Democrat of the Year in Mendocino County.
- Attended Willits Rotary fundraiser to raise funds for the Willits firehouse.

SUBJECT: EDUCATION AND STUDENT SERVICES REPORT

SYNOPSIS:

This is a report of some of the activities and events that have occurred over the past few weeks.

1. Spring 2012: Schedule Released on October 17

The Spring 2012 schedule, which is about the same size as the Fall 2011 schedule, was released on WebAdvisor on 10/17 so that students can begin meeting with counselors prior to enrollment starting on 11/14. Deans and faculty produced a "lean and mean" version that adds math and English sections while preserving classes students need to complete degrees, certificates and transfer requirements. However, the schedule continues to offer fewer strictly recreational classes unless those classes are part of a degree or certificate (e.g., Drawing and Modern Dance). In addition, there is currently no printed version of the schedule available, but the college plans to have some printed copies at each location and at high schools that request them.

2. Curriculum: Recent Developments

The Curriculum Committee continues to review changes to programs and courses; those considered now will be effective for Fall 2012 or Fall 2013. At the most recent meeting, an Administration of Justice for Transfer degree and a Geology for Transfer degree were brought forward, both modeled on 1440 programs (for CSU transfer). The committee also approved a proposal to allow students to take MTH 55 and MTH 56 without placement testing if they have completed a comparable class within the last three years at the high school level. Other projects this year will include a concerted effort to ensure that all active courses have been reviewed within the last five years.

3. Legislation Affecting Instruction and Student Services

The Governor has continued to sign legislation that directly affects college operations, and the trend shows no signs of slowing down. In the last few weeks, laws have been passed that require colleges to grant priority registration to foster youth and allow high school students to substitute CTE courses for visual arts in order to meet graduation requirements. At the same time, the Student Success Task Force is circulating proposals this fall that would, among other things, require that all students have educational plans and take math and English courses in their first year in college if they need remediation (about 80% of students currently). Needless to say, the college is making an attempt to keep track of all the changes so that adjustments can be made quickly. Some, like tuition increases, are likely to reduce enrollment, at least in the short term.

4. Professional Development: Recent Portal Training

On Friday, October 21, the annual fall teacher institute was held on the topic of using the Portal. The session was led by Debra Polak, Basic Skills coordinator and co-chair of the Foundation Skills Teaching and Learning Community, and featured demonstrations of model faculty Portal sites by Leslie Banta, Jody Gehrman and Phil Warf. The event was well attended by full-time faculty as well as part-time faculty from the Ukiah campus as well as the Willits and Lake centers. After the demonstrations, the faculty adjourned to the computer lab and, assisted by Jason Edington and John Loucks, had the opportunity to build their own Portal sites. It was an exciting and productive day and feedback from faculty who attended was positive.

Program Report: Distance Education (DE)
Distance Education Coordinator: Vivian Varela

Distance education has been part of Mendocino College's educational plan for more than 15 years. The DE program has been identified as an important component in meeting the college's strategic goals. Online classes allow for more instructor – student interaction as required by Title V 55204 "Instructor Contact" requirements for "regular effective contact." This emphasis on effective contact reflects Mendocino College's commitment to both strategic goals one, "Become a learner-centered institution by focusing on student success, and two, "Improve student access to college programs and services."

Upcoming tasks for the program include: establishing and implementing a review process to help all online faculty verify their online courses are ADA compliant and developing a plan to decrease the success/retention gap between on-campus and online success/retention rates. The state-wide average is 20% gap in success rates, for Fall 2009 our rate was 19%. With the results of the DE Student Survey from Fall 2010, we know that more students struggle with time management issues, so ways to assist students to be successful will help improve the success rates of online courses.

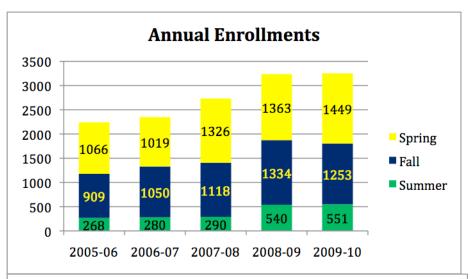

Mendocino College uses Etudes as our Learning Management System. In Fall 2010, the Executive Director of Etudes, Vivie Sinou, came to do a presentation on two new tools within the system that will provide much more data about student participation and engagement. With these components we hope to narrow the success/retention gap in our online courses and the DE Coordinator is doing preliminary data collection to develop a plan to address the verified need.

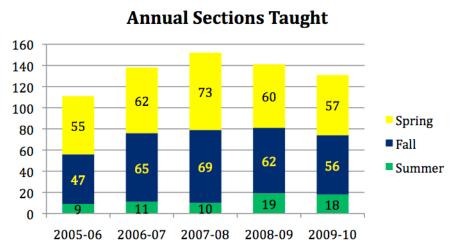

Currently 46% of the full-time faculty are trained to use Etudes and there are 46 part-time faculty trained in the system. The training provides faculty the opportunity to both experience what it is like to be an online student while building a practice site as part of the training course.

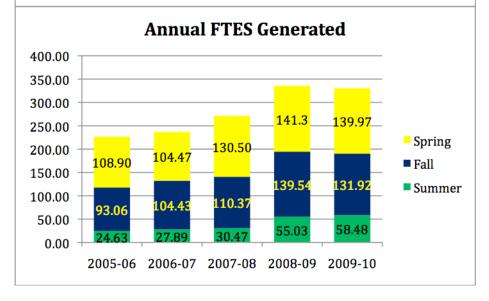

The SLOs for the Distance Education program were assessed in two online courses for 2010-11 and the results have been discussed within the Distance Education Committee. Every spring semester, two different online courses will be assessed using the SLOs. The SLOs are:

- 1. Demonstrate substantive interaction by students with other students taking the course through the use of discussion boards and other communication methods.
- 2. Maintain consistent and effective interaction between students and instructors through the exchange of emails, comments on discussion boards, feedback on assignments, etc.
- 3. Demonstrate the study habits of self-discipline necessary to succeed in distance education classes.

Distance Education Committee goals for the coming year include more training opportunities for faculty and students and improving the success and retention rates in online classes. Also a three year plan to establish a policy and procedure to ensure ADA compliance in our online courses will commence this fall in the Distance Education committee.

SUBJECT: ADMINISTRATIVE SERVICES REPORT

SYNOPSIS:

A report from the Vice President of Administrative Services is offered as information.

Higher Education and Policy Drift

In a just-issued report, "Dollars and Sense: Analysis of Spending and Revenue Patterns to Inform Fiscal Planning for California Higher Education," the Institute for Higher Education Leadership and Policy at California State University, Sacramento, concludes that the pressure is on for California to dramatically increase its production of college degrees. Unfortunately, the lack of directed policy toward the expectations and funding for higher education is standing in the way.

Most of the data used in the report is based on information from the Integrated Postsecondary Education Data System for the year 2002 through 2009. Based upon this data, some of the significant findings of the report are:

- The public sector of higher education in California is relied upon more than in other states: 85% of postsecondary enrollments are in public institutions as compared to a national average of 72%
- College participation rates for both the 18-24 age group and the 25-49 age group are higher in California, ranking 6th for both groups when compared with other states
- The California Community Colleges (CCC) serve a higher proportion of the students enrolled in California's public higher education institutions—71% as compared with 53% nationally
- All three systems of higher education in California are producing more degrees and completions between 2002 and 2009: up 24% at the University of California (UC), up 23% at the California State University (CSU), and up 33% at the CCC
- When looking at degrees and completions per 100 full-time equivalent students, the UC increased 8%, the CSU increased 3%, and the CCC increased 14%
- Spending per completion during the same time frame declined 5% at the UC and CSU each and by 14% at the CCC
- The amount spent per completion is higher than the national average in all three segments, most significantly for the CSU and the CCC; the report cites the low completion rates and underprepared students that typically accompany an open access mission for the CCC as the main reasons

In conclusion, the report asserts that California would need to increase degree production by 5% each year in order to meet the needs of our economy for the foreseeable future—while having been plagued with budget cuts for the last several years and facing possibly more in the near future. The report concludes that such a significant gain in productivity would require fundamental changes—a more comprehensive and efficient way of serving underprepared students, more focus on career-technical education, and more specialized technical institutes, to name a few. The report states that California has been stuck in "policy drift" mode, essentially leaving the higher education system on autopilot as guided by the Master Plan. It urges policymakers to develop standards and expected outcomes for the higher education system as a whole and a deliberate guiding strategy for funding them in order to meet those expectations.

SYNOPSIS:

This is an information report from the Executive Director of the Mendocino College Foundation

ANALYSIS:

The Lake County Friends of Mendocino College teamed up with the College to host a very successful "groundbreaking" ceremony for the new Lake Center site of Mendocino College. A large crowd gathered on October 20 to hear about the future of the new site from the contractor, architect, and College staff.

Scholarship Opportunities for 2012/13 still exist for our "in memory" awards on behalf of late Foundation Directors Mr. Harry Bistrin and Mr. John Bogner.

A new perpetual scholarship has been developed and will be announced to the public very shortly. The focus will be to select students who have chosen culinary arts as their major.

The subcommittee anticipates submitting revised bylaws to the Board of Directors for an initial review at the December 6 board meeting.

The Foundation will host a second tour of Mendocino College with President Lehner as tour guide on Thursday, November 3. Students in the Culinary Arts Program will provide the guests with a light lunch.

I participated in a meeting hosted by Lake County Superintendent of Schools, Mr. Wally Holbrook, regarding educational foundations in Lake County. The diverse group of participants discussed forming a group to review best practices in fundraising, how we limit contacting the same donors and the possibility of joining the California Consortium of Educational Foundations.

Management/Supervisory/Confidential

The Management/Supervisory/Classified group meets monthly. One of the primary purposes of the group is to share information and area updates. This year we have instituted rotating monthly area spotlights specifically for this purpose and have heard so far from HEP, the Child Development Center, Financial Aid, Athletics, Auxiliary Services, and the President's Office.

- The M/S/C raises \$3,000 each year towards scholarships through member contributions. We were able to fund seven scholarships for this year.
- We recently discussed that there may be a need to clarify/update policies clarifying the use of the cameras currently being installed on campus to monitor high traffic areas or other designated areas of concern.
- We approved the use of M/S/C emergency funds as a temporary loan for books for a student taking nursing prerequisite classes who has had an unusual delay in receiving his Pell grant.
- We recently conducted a planning survey through the use of the Portal. The results will be shared with PBC.

Student Trustee Jennifer Evans

This month I partially participated in the Planning Retreat on October 14th and hope to attend the one on Oct. 28 as well.

As an ASMC member, I am helping to raise money for the ASMC scholarship fund. We are selling raffle tickets for firewood to be awarded at Club Day on Oct. 31.

I have also attended all of the regularly scheduled ASMC meetings.

Recently, I was appointed as the Vice President of the Child Development Center (CDV) Parent Club and have been working with Pat Thygesen and the President of the CDV parent club, Charla, developing fund raising ideas. Our Christmas fund raiser is a coupon book comprised of local businesses in Ukiah, Willits, and Lake County that the parents who use CDV will be selling for the Christmas time fundraiser. It has taken a lot of door to door and face to face work from myself and the President of the CDV parent's club to pull this fund raiser together and I am enjoying the process as I am most familiar with fund raising projects.

I am also helping with the See's Candy fundraiser for the CDV.
